AMERICAN & FOREIGN PATENTS.

H. EDDY, SOLICITOR OF PATENTS.

(Late Agent of U. S. Patent Office, Washington

under the Act of 1837.)

To STATE-ST. opposite Kirby at BOSTON.

AFTER an extensive practice at BOSTON,

twenty years, continues to secure Patents in

the United States also in Great Britain, France,

and other foreign countries. Conveys, Specifi-

cations, Assignments, and all Papers or Drawings

for Patents executed on liberal terms, and with

despatch. Resides in the City of America, or

Foreign agents to determine the validity or utility

of Patents or Inventions, and legal or other

business connected with the same. Copies of the

claims of any Patent obtained by

remitting One Dollar. Assignments recorded at

Washington.

This Agency is not only the largest in New

England, but through its efforts have advantages

for securing patents, or ascertaining the patent-

ability of inventions, unsurpassed, by, if not in-

creasurably superior to, any which can be offered

elsewhere. The testimonials below given

prove that H. EDDY is SUCCESSFUL AT THE

PATENT OFFICE. Then the subscriber and as

SUCCESS IN THE BEST PROOF OF ADVAN-

TAGES AND ABILITY. He would add that he

has abundant cause to believe, and can prove,

that no other office of the kind are the charges for

professional services so moderate. The immense

practice of the subscriber during twenty years

has enabled him to accumulate a vast col-

lection of specifications and official decisions

relative to patents. These, besides his extensive

library of laws, regulations, and precedents, full

accounts of patents granted in the United States

and Europe, render him able, beyond question,

to offer superior facilities for obtaining patents.

A necessity of a journey to Washington, to

procure a patent, and the usual great delay, there-fore

are here saved.

During the time I occupied the office of Con-

sulting Agent of Patents, H. Eddy, Esq., of Boston,

has been at the Patent Office, as Solicitor for

procuring patents, and has been successful in

obtaining at that capacity, who had so much

business before the Patent Office, and there were

none who could do it with more skill, fidelity,

and success. I regard Mr. Eddy as one of the

best informed and most skillful Patent Solicitors

in the United States, and have no hesitation in

recommending him to all who are desirous of

procuring more competent and trustworthy, and capable

of putting their applications in a form to secure for

them an early and favorable consideration by the

Patent Office.

EDMUND BURKE.

Late Commissioner of Patents.

"August 17, 1854."—During the time I have

held the office of Commissioner of Patents, H. E.

Eddy, Esq., of Boston, has been extensively en-

gaged in the transaction of the Patent Office, as

cessful practitioners with whom I have had official in-

tercourse.

PRESIDENT'S MESSAGE.

Fellow-Citizens of the Senate,

and of the House of Representatives:

In obedience to the command of the

Constitution, I have now become my duty

to give to Congress information of the

state of the Union, and recommend

to their consideration such measures as

I judge to be "necessary and expedient."

Not first, and above all, our thanks are

due to Almighty God for the numerous

benefits which he has bestowed upon this

people, and our united prayers ought to

ascend to Him that he would continue

to bless our great Republic in time to

come as he has blessed it in the past.

Since the adjournment of the last Con-

gress our constituents have enjoyed an

unusual degree of health. The earth has

yielded her fruits abundantly, and has

beautifully rewarded the toil of the hus-

bandman. Our great staples have con-

tinued high prices, and up till within a

brief period, our manufacturing, mineral

and mechanical occupations have largely

partaken of the general prosperity. We

have possessed all the elements of mate-

rial wealth in rich abundance, and yet

withstanding all these advantages, our

country in its monetary interests is at

the present moment in a deplorable

condition. In the midst of unsur-

passed plenty in all the productions of

agriculture and in all the elements of na-

tional wealth we find our manufactures

suspended, our public works retarded, our

private enterprises of different kinds

abandoned, and thousands of useful labor-

ers thrown out of employment and re-

duced to want. The revenue of the gov-

ernment which is chiefly derived from

duties on imports from abroad, has been

greatly reduced, whilst the appropri-

ations made by Congress at its last session

for the current fiscal year are very large

in amount.

Under these circumstances a loan may

be required before the close of the pres-

ent session; but the, although deeply

to be regretted, would prove to be only a

light misfortune when compared with

the suffering and distress prevailing

among the people. With this the govern-
